

STUDY OVERVIEW

GOAL, OBJECTIVES, AND PROCESS

GOAL

Identify opportunities for safer travel for residents of and visitors to the study area, and to improve the transportation network, regardless of how you get around. This will be done through a three-part approach:

OBJECTIVES

- Develop a comprehensive approach to traffic calming and operational improvements for all users living in and visiting the area;
- Identify specific issues that impact safety and comfort of pedestrians, bicyclists, transit users, and motorists, while also accommodating freight and delivery needs;
- Identify areas where Green Infrastructure (GI) can be implemented to better manage stormwater impacts;
- Design cost-effective and measurable system improvements that benefit all users;
- Emphasize safety and access improvements around neighborhood facilities including but not limited to: schools, park, recreation centers, transit stops, and other key community facilities; and
- Enhance comfort and livability for residents and visitors to the project area.

PROCESS
